Ametek Airtechnology - This week at the IDEX Exhibition in Abu Dhabi, Calidus LLC, a UAE Government company who design and manufacture military vehicles and airplanes, unveiled a new 8x8 Infantry Fighting Vehicle. This was presented to the Prime Minister of the UAE, Sheikh Mohammed bin Rashid, together with the Deputy Supreme Commander of the Armed Forces, Crown Prince Sheikh Mohammed bin Zayed.

The Wahash was designed jointly with South African company, ADG Mobility, for whom AAG designed and developed a new Air Conditioning and CBRN Filtration Systems to be fitted to the vehicle.

AAG has been proud to be part of this new and impressive vehicle.

About Ametek TMS

For more than 60 years, Ametek TMS has successfully supported some of the most stringent Aerospace and Military programs and installations. Our Products are specifically designed to operate efficiently, effectively and reliably in harsh environments and demanding applications.

Ametek TMS offers a full range of system and component solutions. With cataloged parts that can comprise the majority of an ECS design, TMS is perfectly suited to design and develop systems for any new platforms.

TMS helps our customers pick the right product for the job, minimizing design, program schedule and contract risk.

AMETEK, Inc.

AMETEK is a global leader in electronic instruments and electromechanical devices with colleagues at numerous manufacturing, sales and service locations in the United States and in many other countries around the world.
